Second Announcement and Call for Abstracts

EAPCCT 2010

The EAPCCT XXX International Congress will be held in Bordeaux, a beautiful and historic city in southwest France. The Congress will take place at the Palais de Congrès.

As in previous years, the Congress is organised both academically and administratively by the EAPCCT Scientific and Meetings Committee. This will ensure that delegates gain the maximum benefit from the Congress. The Congress will once again be co-sponsored by the American Academy of Clinical Toxicology, which will also accredit the Congress for continuing medical education. Abstracts from this meeting will be published in an issue of the journal Clinical Toxicology, the official Journal of the American Academy of Clinical Toxicology, the European Association of Poisons Centres and Clinical Toxicologists and the American Association of Poison Control Centers in time for the Congress.

The Pre-Congress educational programme will focus on investigation of the poisoned patient and the principal themes of the academic programme of the Congress are: Paracetamol toxicology – what's new?; Optimising research in poisons centres; Preparedness for unusual toxic outbreaks; Toxic alcohols; Management of drug and alcohol withdrawal; and Critical care. There will again be a session with case presentations.

At the XXX International Congress in Bordeaux we hope to offer you an outstanding academic programme, balanced with the usual social events in a beautiful and historic city located in a world-famous wine growing area. Your participation will guarantee the quality of our programme and in return you will be stimulated by four days of the finest continuing education in clinical toxicology. We look forward to seeing you in Bordeaux, and hope that you will take the opportunity to visit this area of France, and sample its many delights in the days either side of the meeting.

Hugo Kupferschmidt
EAPCCT President

Martin Wilks
Chairman, EAPCCT Scientific and Meetings Committee

CONTINUING EDUCATION IN CLINICAL TOXICOLOGY

Tuesday 11 May 2010

In order to provide Continuing Education in Clinical Toxicology (CECT), the EAPCCT Scientific and Meetings Committee has arranged a TOXUPDATE. This one-day symposium will include state-of-the-art presentations and case studies on:

- Investigation of the poisoned patient

SCIENTIFIC PROGRAMME

Wednesday 12 - Friday 14 May 2010

The themes for the Congress are shown below and abstracts on these topics would be particularly welcomed:

- Paracetamol toxicology – what's new?
- Optimising research in poisons centres
- Preparedness for unusual toxic outbreaks
- Toxic alcohols
- Management of drug and alcohol withdrawal
- Critical care.

Plenary lectures

There will be up to three plenary lectures with invited speakers who are acknowledged experts in their fields.

Poster discussion sessions

As in Stockholm there will be a poster discussion session as part of the programme where posters of special interest or controversy are discussed.

Young Investigator's Award

A Young Investigator's Award will again be presented this year. A shortlist will be chosen by the Scientific Committee on the basis of the quality of the abstracts submitted. The winner will receive an honorarium of Euro 1000. To be considered for the award the person applying must fulfil the following criteria:

- Young investigators are defined as <40 years of age on the last day of the Congress (Friday 14 May 2010). This will be confirmed prior to the prize being awarded by passport check.

- The young investigator must be the principle investigator of the research being presented. This means that they have taken the lead in performing the research and are the most appropriate person to present the research at the Congress. It is acceptable for the young investigator to have research collaborators over the age of 40 and these can be listed on the abstract. This might include a research supervisor.
- The research submitted must be original and must not have been published or presented at another conference.
- Applicants do not need to be members of the EAPCCT but they must be present at the Congress to present the research.
- Previous winners of the Young Investigator Award are not eligible to apply again.

Judging the winner

Those on the final shortlist will be invited to make an oral presentation of their work at the Young Investigator session at the Congress. Oral presentations for the award will take place in one session. The quality of presentations will be judged by at least 3 senior judges who are invited to do this by the Scientific Committee. These judges will not have relevant conflicts of interest. The judges will score each presentation and at the end of the session will come to a consensus on which presentation should receive the award. The decision of the judges is final.

Assistance with abstracts

Members of the EAPCCT Board and Scientific Committee are ready to help scientists who are not used to presenting data and structuring an abstract. If you think that a review of your abstract before final submission might help you, please feel free to send your abstract as soon as possible to Vincent Danel: VDanel@chu-grenoble.fr

Please note that this pre-review process is not a guarantee of acceptance of your abstract by the Scientific Committee.

For help with English please submit your abstract on-line as usual and check the box requesting help with English.

ABSTRACT SUBMISSION GUIDELINES

General notes

- The EAPCCT Scientific and Meetings Committee, chaired by Martin Wilks will evaluate the abstracts. The Scientific and Meetings Committee's decision will be final.
- **Abstracts must be submitted by midnight on Wednesday 18 November 2009** to be considered by the Scientific Committee. If you request help with English it is important to submit well before the final submission date. If you submit after 11 November there is no guarantee that there will be time to supply help with English before the review process starts.
- All abstracts accepted for presentation at the Congress will be published in the journal Clinical Toxicology. The decision of the Scientific and Meetings Committee in this regard will be final. There will no longer be a category of abstracts accepted for the Congress but not published in Clinical Toxicology.
- **No abstract received after 18 November 2009 will be considered for the meeting, unless agreed in advance by the Chairman.**

On-line abstract submission

- ALL abstracts should be submitted electronically via the EAPCCT website <http://www.eapcct.org>. Detailed instructions for this are provided on the website.
- Instructions given below must be adhered to strictly. As time does not permit return of inadequately prepared abstracts for revision, they will be rejected! An exception may be made for minor correctable errors, at the discretion of the Scientific Committee.
- Submission of the electronic form signifies understanding of, and agreement with, all the conditions set out below.

If you have no Internet access or experience technical problems

- If you do not have access to the Internet, or you encounter technical problems that prevent you from submitting on-line please contact the Congress Secretariat (sc@eapcct.org) who will assist with technical problems, or make arrangements for you to submit via e-mail or mail if necessary.

Abstract format

There are changes to the submission process from previous years so please read the instructions carefully. The instructions give the general guidance for format although the electronic submission tool will format much of your abstract automatically. However, you are strongly advised to pre-prepare your abstract, using the guidance notes below, **before** attempting to submit your work on-line, since each session on-line is time

limited. You will be asked to upload a back-up version of your abstract (preferably prepared in Word), with a separate file if a table is included. **Note: Graphs and other figures are no longer permitted.**

- Authors should be listed using the entire surname and the initial(s). Omit titles, degrees, and academic appointments and do not separate initials with punctuation e.g. Smith MP
- The affiliation must comprise ONLY department name, institution, city, state/province and country.
- The body of the abstract should be organised as outlined below. You **must** include the underlined words in the body of your abstract (do not attempt to underline these in your submission). Please note that our system requires the presence of the colon (:) after these underlined words to recognise them as headings. You must therefore use the colons, e.g. Objective:
- Objective: A statement of the purpose or reason for the report. Methods: A brief description of the study design. Results: A summary of the results presented in sufficient detail to support the conclusion. Data must be presented in the abstract. Statements such as “the results will be presented” or “other data will be presented to support...” will result in automatic rejection of the abstract. Conclusion: a statement of the conclusion based on the data presented. References: All references should appear at the end of the abstract in numerical order as they appear in the text. Ensure references are cited in the text by a number in parentheses e.g. (23). Follow the referencing style below. Generally reference numbers should be limited to 5 or less (10 or less for an invited lecture).
- References for **Journal articles** should be formatted as in the following example: Giannini L, Vannacci A, Missanelli A, et al. Amatoxin poisoning: a 15-year retrospective analysis and follow-up evaluation of 105 patients. Clin Toxicol 2007; 45: 539-42.
- References for **Book chapters** should be formatted as follows: Goadsby PJ. Pathophysiology of headache. In: Silberstein SD, Lipton RB, Dalessio DJ, eds. Wolff's headache and other head pain. 7th ed. Oxford, England: Oxford University Press, 2001:57-72.
- For case reports or case series, the words Case report: or Case series: replace the Methods: and Results: headings. Otherwise, the format remains the same.
- Reports of non-clinical studies, such as those describing poisons centre operations or educational tools should attempt to follow these guidelines as closely as possible.
- The number of words is limited strictly to **350** excluding the title, authors and affiliations or 250 words plus one simple table. Each word or number is counted as one word whether it is one character or 10 characters long. (The previous sentence has a word count of 18). Units will count as part of the number with which they are attached. The sentence “The patient’s salicylate concentration was 1000 mg/L” has a word count of six.
- For plenary lectures, keynotes and presentations for the educational PreCongress there will be no general requirement to submit an abstract. Instead, invited speakers

will need to submit a set of learning objectives and are given the option to submit an abstract of up to 1000 words for peer review and publication in *Clinical Toxicology*. Invited speakers will receive separate notification of the details.

- Please do NOT use automatic Word functions, e.g. numbering, bullet points or footnotes.
- Use of tables creates editorial difficulties and these are therefore discouraged. However, you may include **one simple** table. If a table is used the word count must be cut by 100 (i.e. to 250 words).
- Figures and graphs/diagrams are no longer allowed.
- Please be aware that the on-line submission system removes all special formatting, including bold, italic, underline, superscript, and subscript. Necessary formatting, e.g. H₂O and similar, will be replaced in your abstract (if accepted for the Congress) prior to publication. Please also be aware that on-line submission may also affect the appearance of Greek and other symbols – to avoid confusion please spell them out in full (if possible), e.g. “beta-blocker”, “micrograms”.
- Use only standard abbreviations. As there is no incentive to using smaller words, non-standard and extensive abbreviations will only detract from your abstract’s acceptability. Numbers may be used to replace words, e.g. 5 rather than five, though the word count remains the same.
- An example of abstract style is printed at the end of this section. This represents how abstracts will appear in the Congress book.

Notification of abstract receipt

- The on-line submission tool will allocate your abstract a unique identification number at the start. Please note this for your own records.
- A confirmation message will be displayed at the end of on-line submission. We recommend you **print** a copy of this for your records as well.
- Please note that after successful on-line submission it is NOT necessary to provide documentation by mail or e-mail.
- Submitters will be notified of the acceptance or rejection of their abstract by **Friday 29 January 2010**. Authors who have provided an e-mail address will receive this notification via that e-mail address.
- All abstract presenters will be asked to return a form by e-mail confirming their intention to attend the meeting. Please send this back promptly so that we know you have received our notification of acceptance.
- All abstract presenters must register for the Congress by **Friday 19 February 2010**. Failure to do so will result in the abstract being withdrawn from publication in the journal *Clinical Toxicology*, and will result in administrative rejection of the abstract.

000 This is an Example of Abstract Style

Smith MP (1), Jones NZ (2), Brown T (1). 1. *Department of Toxicology, Royal Hospital, Townsville, Germany*; 2. *Poisons Unit, Infirmary, Townsville, Czech Republic*

Objective: A statement of the purpose or reason for the report. Methods: A brief description of the study design. Results: A summary of the results presented in sufficient detail to support the conclusion. Data must be presented in the abstract. References should be indicated in the text like this (1). Statements such as “the results will be presented” or “other data will be presented to support...” will result in automatic rejection of an abstract. Conclusion: a statement of the conclusion based on the data presented. References: 1. Author A, Writer B, Scribe C, et al. Title of paper. Clin Toxicol 2006;12: 345-567.

(note that names, numbering and affiliations are formatted automatically on the website)

CONTINUING EDUCATION INFORMATION

The scientific sessions will be accredited for continuing medical and pharmaceutical education. Continuing education credits for physicians and pharmacists are awarded by the American Academy of Clinical Toxicology.

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the American Council for Continuing Medical Education (ACCME) through the joint sponsorship of the American Academy of Clinical Toxicology and the European Association of Poisons Centres and Clinical Toxicologists. The American Academy of Clinical Toxicology is accredited by the ACCME to provide continuing education for physicians.

The American Academy of Clinical Toxicology is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

Requirements for successful continuing education credits registration

Complete the following steps:

- (1) Select accreditation when filling out the Congress registration form and submit the Continuing Education Registration Fee of Euro **75**.
- (2) Complete an evaluation form for each session attended. Please list your suggestions for topics for future Congresses.
- (3) Fill out and return the Continuing Education Participation Form to staff at the Congress registration desk.

The American Academy of Clinical Toxicology will mail a certificate of credit hours earned to you at a later date.

REGISTRATION FEES

Category	Until 19 Feb 2010		After 19 Feb 2010	
Pre-Congress Symposium (TOXUPDATE):				
EAPCCT/AACT members	Euro	130.-	Euro	130.-
Non-members	Euro	180.-	Euro	180.-

The registration Fee for the Pre-Congress Symposium includes participation in the Pre-Congress Symposium, abstract book, coffee breaks and lunch on 12 May 2009 only.

Main EAPCCT Congress

EAPCCT/AACT members	Euro	530.-	Euro	675.-
Non-members	Euro	670.-	Euro	775.-
Nurses*	Euro	300.-	Euro	430.-
Fellows, Poisons Centre trainees and Students*	Euro	300.-	Euro	430.-
One day Congress fee	Euro	270.-	Euro	270.-
AACT CME accreditation	Euro	75.-	Euro	75.-
Accompanying persons	Euro	35.-	Euro	35.-
Congress Dinner	Euro	65.-	Euro	65.-

Notes

The registration fee for the main Congress includes Congress participation on 12-14 May 2010, Welcome Reception, abstract book, coffee breaks and lunches on 12-14 May 2010.

* Must be under 35 years. A letter from the Head of Department should accompany the Registration, stating that the person is still in training.

§ The fee for the accompanying person includes registration and Welcome Reception on 12 May 2010 only.

Congress and hotel registration

The EAPCCT has moved to online registration and we would prefer, therefore, that Congress registration be submitted electronically via the EAPCCT website <http://www.eapcct.org> Instructions will be provided on the web site.

The hotel registration will be notified later.

If you do not have access to the Internet please contact the Congress Secretariat (see page 12).

Central European and EU Accession Countries

Membership

Help is available for membership of the EAPCCT and for Congress attendance for applicants from the following countries: Bosnia Herzegovina, Bulgaria, Estonia, FYROM, Hungary, Latvia, Lithuania, Montenegro, Russia, Romania, Serbia and Ukraine. **NB Not more than one award to each country will be made.**

Applicants should be:

- single members of a poisons centre or clinical department
- under 40 years of age
- from a country on the inclusive list

Applicants will need to provide a current CV. The membership includes receipt of Clinical Toxicology and all the normal rights of a full member.

Congress attendance

Similar criteria apply to Congress attendance support.

Applicants should again be:

- single members of a poisons centre or clinical department
- under 40 years of age
- from a country on the inclusive list

Applicants will need to provide a current CV, and have had an abstract accepted for oral or poster presentation at the meeting. Awards include reduced rate registrations (at the existing student rates) and guaranteed free admission to the pre-congress continuing education day.

Cancellation policy

Cancellation of registration should be notified in writing to the Congress Secretariat. Any refunds will be paid as soon as practicable.

- *Cancellation received up to 14 March 2010* - full refund less handling fee and bank charges will be made.
- *Cancellation received up to 21 March 2010* - 50% refund will be made.
- *Cancellation received after 21 April 2010* - no refunds will be made.

SOCIAL PROGRAMME

Wednesday 12 May 2010 Welcome Reception

Friday 14 May 2010 Congress Dinner *Euro 65.-*

The Congress dinner at the 2010 Congress will be held at the Chateau Giscours, among the most prestigious wines of the Bordeaux vineyards (www.chateau-giscours.com).

BORDEAUX

Bordeaux has a population of approximately 1 million in the metropolitan area and is situated on the south west of France on the Atlantic coast. The area is famous for wine. Bordeaux, the 6th French capital, was founded in the 3rd century BC (its name was Burdigala), and was administrated for three centuries by the British government (12th-15th century). The city built its wealth on this location, using the soil and climate to produce the best wines of the world and building around the river's main port of France (1750) and one of the greatest European centers of trade. 1,810 hectares, of which 4,455 in the city, have been inscribed on the World Heritage List in June 2007, the first urban complex, distinguished by the World Heritage Commission of the UNESCO since its creation. Bordeaux is also famous for its 53 historical sites, monuments and museums open to visitors.

The Bordeaux region also includes the largest cultivated forest of Europe (1,700.000 ha), one of the first vineyards in the AOC (Appellation d'Origine Contrôlée: "controlled term of origin" is the French certification granted to certain French geographical indications for wines) world (110,000 ha), the highest dune in Europe (the Dune du Pyla, 105 m high), and the Atlantic beaches.

Bordeaux is the centre of the largest vineyard of fine wines in the world: over one hundred and fifty thousand acres - of exceptional richness: 57 "appellations of origin" in regional, sub-regional or local, over 5,000 castles, 60 cooperatives and 400 houses trading in wine. Its wines are among the most prestigious: Petrus, Yquem, Mouton Rothschild, Cheval Blanc, Haut Brion and, of course, Giscours.

HOTEL

The EAPCCT Scientific and Meetings Committee will provide information on accommodation for our delegates in a number of hotels close to the Congress centre, which are of varying standards and prices. Further information on booking hotels will be provided later on the website.

GENERAL INFORMATION

For general information about the Congress view the EAPCCT home page at <http://www.eapcct.org>. The provisional and final programmes will be placed on the web site in due course.

Venue and date

The XXX Congress of the European Association of Poisons Centres and Clinical Toxicologists will be held at the Bordeaux Palais des Congrès Tuesday 11 May to Friday 14 May 2010.

Location: Palais des Congrès
Av Jean Gabriel Demergue
Bordeaux Lac

Local organiser

Dr Régis Bédry

Arrival in Bordeaux

By air

Bordeaux-Mérignac Airport has flights from Amsterdam, London (Gatwick and Luton), Paris (Charles de Gaulle and Orly) among other cities.

The Jet'Bus departs from Terminal B, arrivals level and connects Bordeaux Airport with Bordeaux train station via the city centre every 45 minutes, 7 days a week (journey time 45 minutes, depending on traffic; cost Euro 7 [to 31 Dec 2009]).

By train

It may be easier for many Congress attendees to arrive by train from e.g. Paris. Bordeaux is well connected by train and a TGV (fast train) from Paris Montparnasse takes ~ 3 hours to reach Bordeaux. Reservations are compulsory and you can book tickets at

<http://www.tgv-europe.com/en>

<http://www.sncf.co.uk/>

<http://www.raileurope.com/>

Travel time from abroad			
European cities	By car	By plane	By train
Amsterdam	10h	1h45	8h
Barcelone	6h	1h15	10h30
Berlin	16h	3h30 (via Bruxelles)	14h30
Bruxelles	8h	1h35	6h
Genève	7h30	1h20	7h45
Londres	10h	1h30	7h
Madrid	7h	1h15	10h30
Milan	10h	2h25 (via Clermont Ferrand)	12h30
Munich	13h	1h55	13h
Rome	14h	1h20	18h30

Banking services and currency

France uses the Euro. All major credit cards are widely accepted in hotels, shops and restaurants. Cash can also be withdrawn from most ATMs and they often provide instructions in different languages. Banks are usually open from 8.30 am to 12 pm and from 2.30 pm to 5 pm on weekdays only.

Clothing

In May the average high temperature is 19°C (67°F)

Electricity supply

Electricity is 230V. Plugs are the European type with two round pins. Your 220V appliances may be plugged into a French outlet with an adaptor, though their 110V cousins (e.g. from North America) may require a transformer. Some electric devices – shavers and most laptops – work on both 110V and 220V. Adaptors are quite difficult to find in the city, except in major hotels. They are usually available in airports.

Health and water

Bordeaux presents no health problems to the sensible traveller. The water is safe to drink.

Insurance

In registering for the XXX Congress of the EAPCCT, participants agree that neither the Scientific and Meetings Committee nor the EAPCCT assume any liability whatsoever. Participants are requested to make their own arrangements regarding health and travel insurance. The organisers cannot be held liable for any accidents, theft, damage to property, delays, or any modification in the programme due to unforeseen circumstances.

Language

The official language of the conference will be English. Simultaneous translation will not be provided.

Time

Local time will be GMT +2 hours.

Tipping

You do not need to tip in France, as service charges are included in every restaurant by law, and also included in the fare that you are quoted in a taxi. It is common, however, to leave around 7% for a waiter in a restaurant if you are really satisfied. In bars, the French often leave a small change as tip, as well as for hotel porters and toilet attendants.

Tourist information

For further information on Bordeaux and France see <http://www.bordeaux-tourisme.com>

Transportation

The transportation network of Bordeaux is called Tbc (Tram et bus de la CUB

[Communauté Urbaine de Bordeaux or “Urban Community of Bordeaux”]). There are more than 90 lines in 27 municipalities of the CUB. You can find information on <http://www.infotbc.com>. It is possible to travel 20h out of 24, with a single ticket for the tram and bus. The tram runs from 5am to 1am the next morning. The network serves all municipalities of the CUB from 5h to 21h. Beyond this time, the evening network can connect all the municipalities to the tram or to the city centre of Bordeaux, from 21h30 until last departure of the tram up to 1am. The principle is simple: 1 trip, you can move freely throughout the network for one hour (between the first and the last validation). During this time, connections and trips are free. The ticket must be validated on entry to the bus or tram, even in the case of a transfer.

There are several different types of tickets: for 1 (1.40 euro), 5 (5.20 euros) or 10 travels (10.30 euros), and combined tickets which allows to leave your car on a parking and take a bus or a tram (3.00 euro). There are also travelcards for 1 day (4.10 euros) or 7 days (10.10 euros). They are sold in tobacco and newspapers shops, automatic tickets sellers located on each station of the tram network, and from the internet site.

Free transport passes are being negotiated for delegates for the days of the Congress.

Taxis

Taxis are plentiful and are quite expensive in Bordeaux. The price you pay is divided into two parts: the initial charge and the journey. In all cases, the driver may charge you a minimum price of 5.80 €. It includes an initial package of €2 plus possibly a few extras: 0.74 € for bags weighing more than 5 kg, 1.41 € for the 4th person, 0.68 € for a journey beginning at the station or airport. Note that not all taxis take cards – you may need cash.

Taxi Bordeaux: Tel. 33 5 56 77 24 24 24h/24h or
<http://www.alliance-taxi-bordeaux.fr/en/index.php>

Visas and immigration

A valid EU or US passport entitles you to a three-month stay in France. Delegates from many other countries also do not require visas but **Congress delegates are advised to check these arrangements with their local French Embassy.**

The EAPCCT Congress Treasurer can provide confirmation by e-mail of payment of Congress registration fees by delegates or acceptance of papers for presentation on request. Formal letters of confirmation of payment will also be included in the delegate packs. Please e-mail sc@eapcct.org. The General Secretary can provide letters of invitation for those who have abstracts accepted and require a visa but allow plenty of time as response from embassies is often very slow.

DATES TO REMEMBER

Opening of abstract submission tool	26 October 2009
Deadline for receipt of abstracts	18 November 2009
Electronic abstract reviewing	27 November – 7 December 2009
Rejection or acceptance of abstract notification	29 January 2010
Deadline for abstract presenters to register	19 February 2010
Deadline for early Congress registration	19 February 2010
Deadline for reserving accommodation at special Congress rates	13 March 2009
EAPCCT XXX Congress	11 - 14 May 2010

EAPCCT WEB SITE www.eapcct.org

The EAPCCT web site will contain up-to-date information on all aspects of the Congress, including registration forms. The provisional and final programmes will be available in due course.
