

**Status of science in the category of
Pharmacology/Pharmacy/Toxicology in Iran on the basis of Web of
Science/Thompson ISI**

Web of Science is an online academic database provided by ISI. This database covers about 8,700 leading journals of science, technology, social sciences, arts, and humanities. One may use ISI to search cited references. One may also search and analyze the database by topic, by author, by source title, and by address. In the present study all data were gathered for Iranian scientists. Up to September 2007, the number of registered articles in subject of Pharmacology/Pharmacy/Toxicology by Iranian scientists was 1263. Data are summarized according to: Number of Articles, Total Times Cited, h-index, Average Citation per Item.

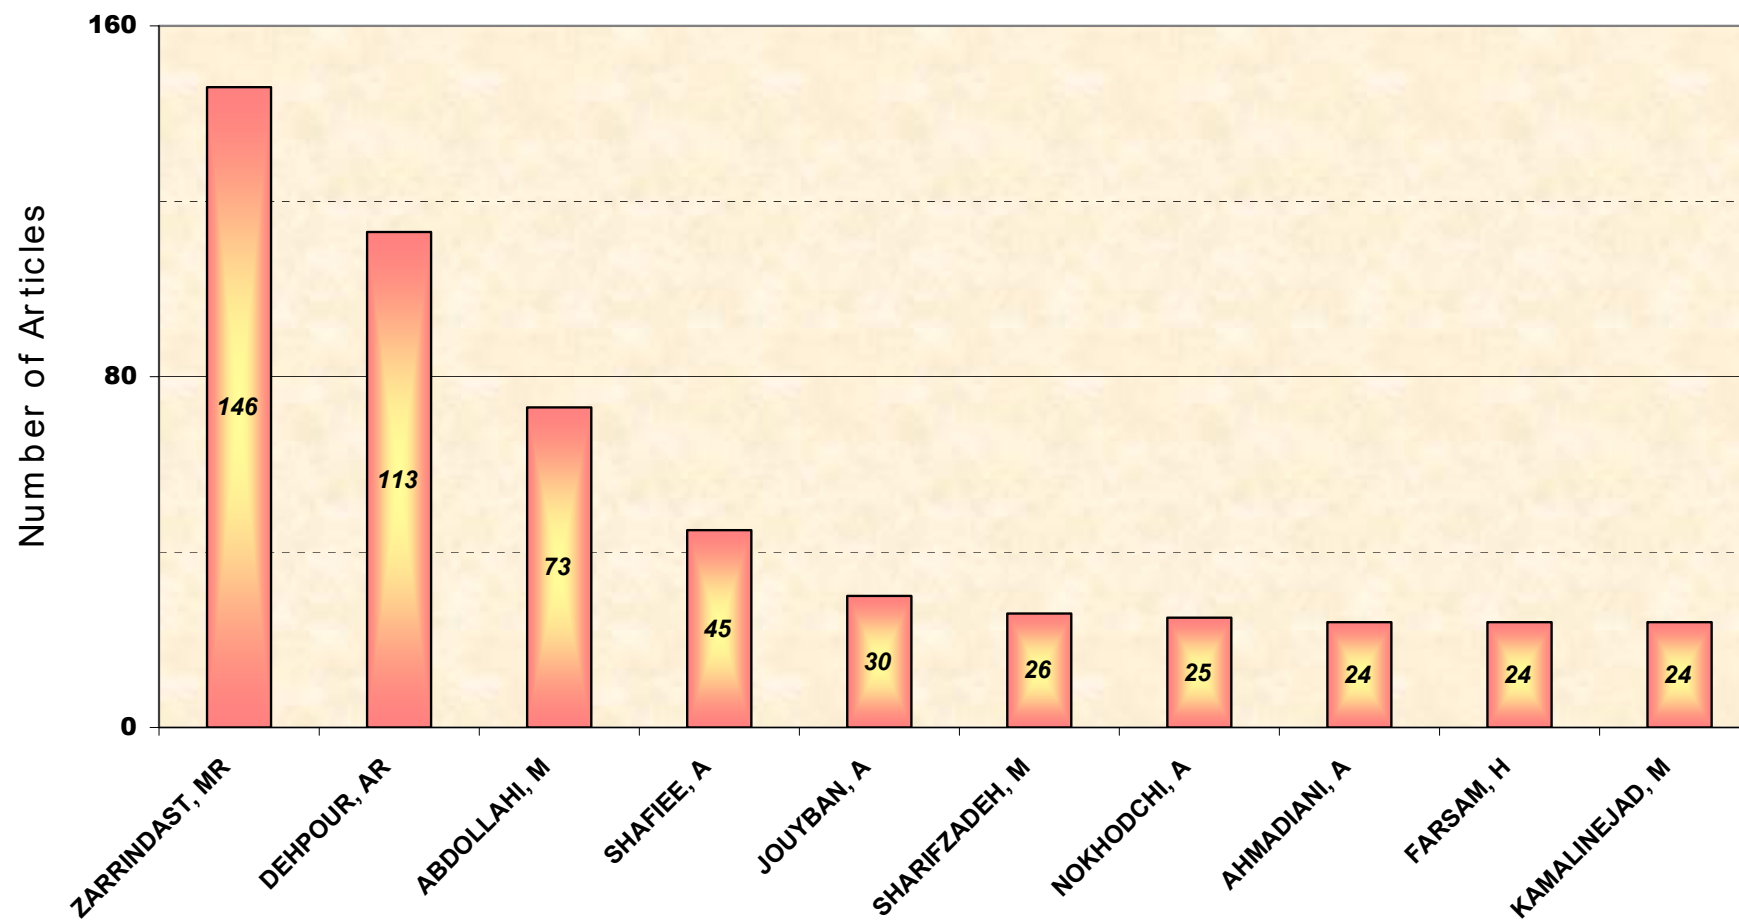

Prepared by: Dr Kian Azami, Resident of Toxicology, Tehran University of Medical Sciences
